live beyond routine

Live beyond routine

L'environnement en que nous vivons c'est l'essence de notre entreprise.

Nous aimons le design et nous supposons que le design peut transformer l'environnement et émotionner les personnes.

Notre compromis c'est de innover toujours. Créer et partager produits et services approprié à notre temps et que permettent l'accès au design d'un nombre de personnes plus grande.

Die Umgebung, in der wir leben, ist das Wesen unseres Geschäfts.

Design ist unsere Leidenschaft. Wir sind der Auffassung dass Design das Umfeld verwandelt und die Menschen bewegt.

Unser Einsatz gilt der Innovation. Der Erstellung und Verteilung von Produkten und Dienstleistungen, die unsere Zeit zugeschnitten sind und immer mehr Menschen den Zugriff auf Design zu ermöglichen.

The environment which we live in is the essence of our business.

We are passionate about design. We believe that design can transform environments and thrill people.

Our commitment is to innovate always. Creating and distributing products and services tailored to our time and providing access to design of a growing number of people.

El ambiente en el que vivimos es la esencia de nuestro negocio.

Nos apasiona el design. Creemos que el design puede transformar los ambientes y emocionar las personas.

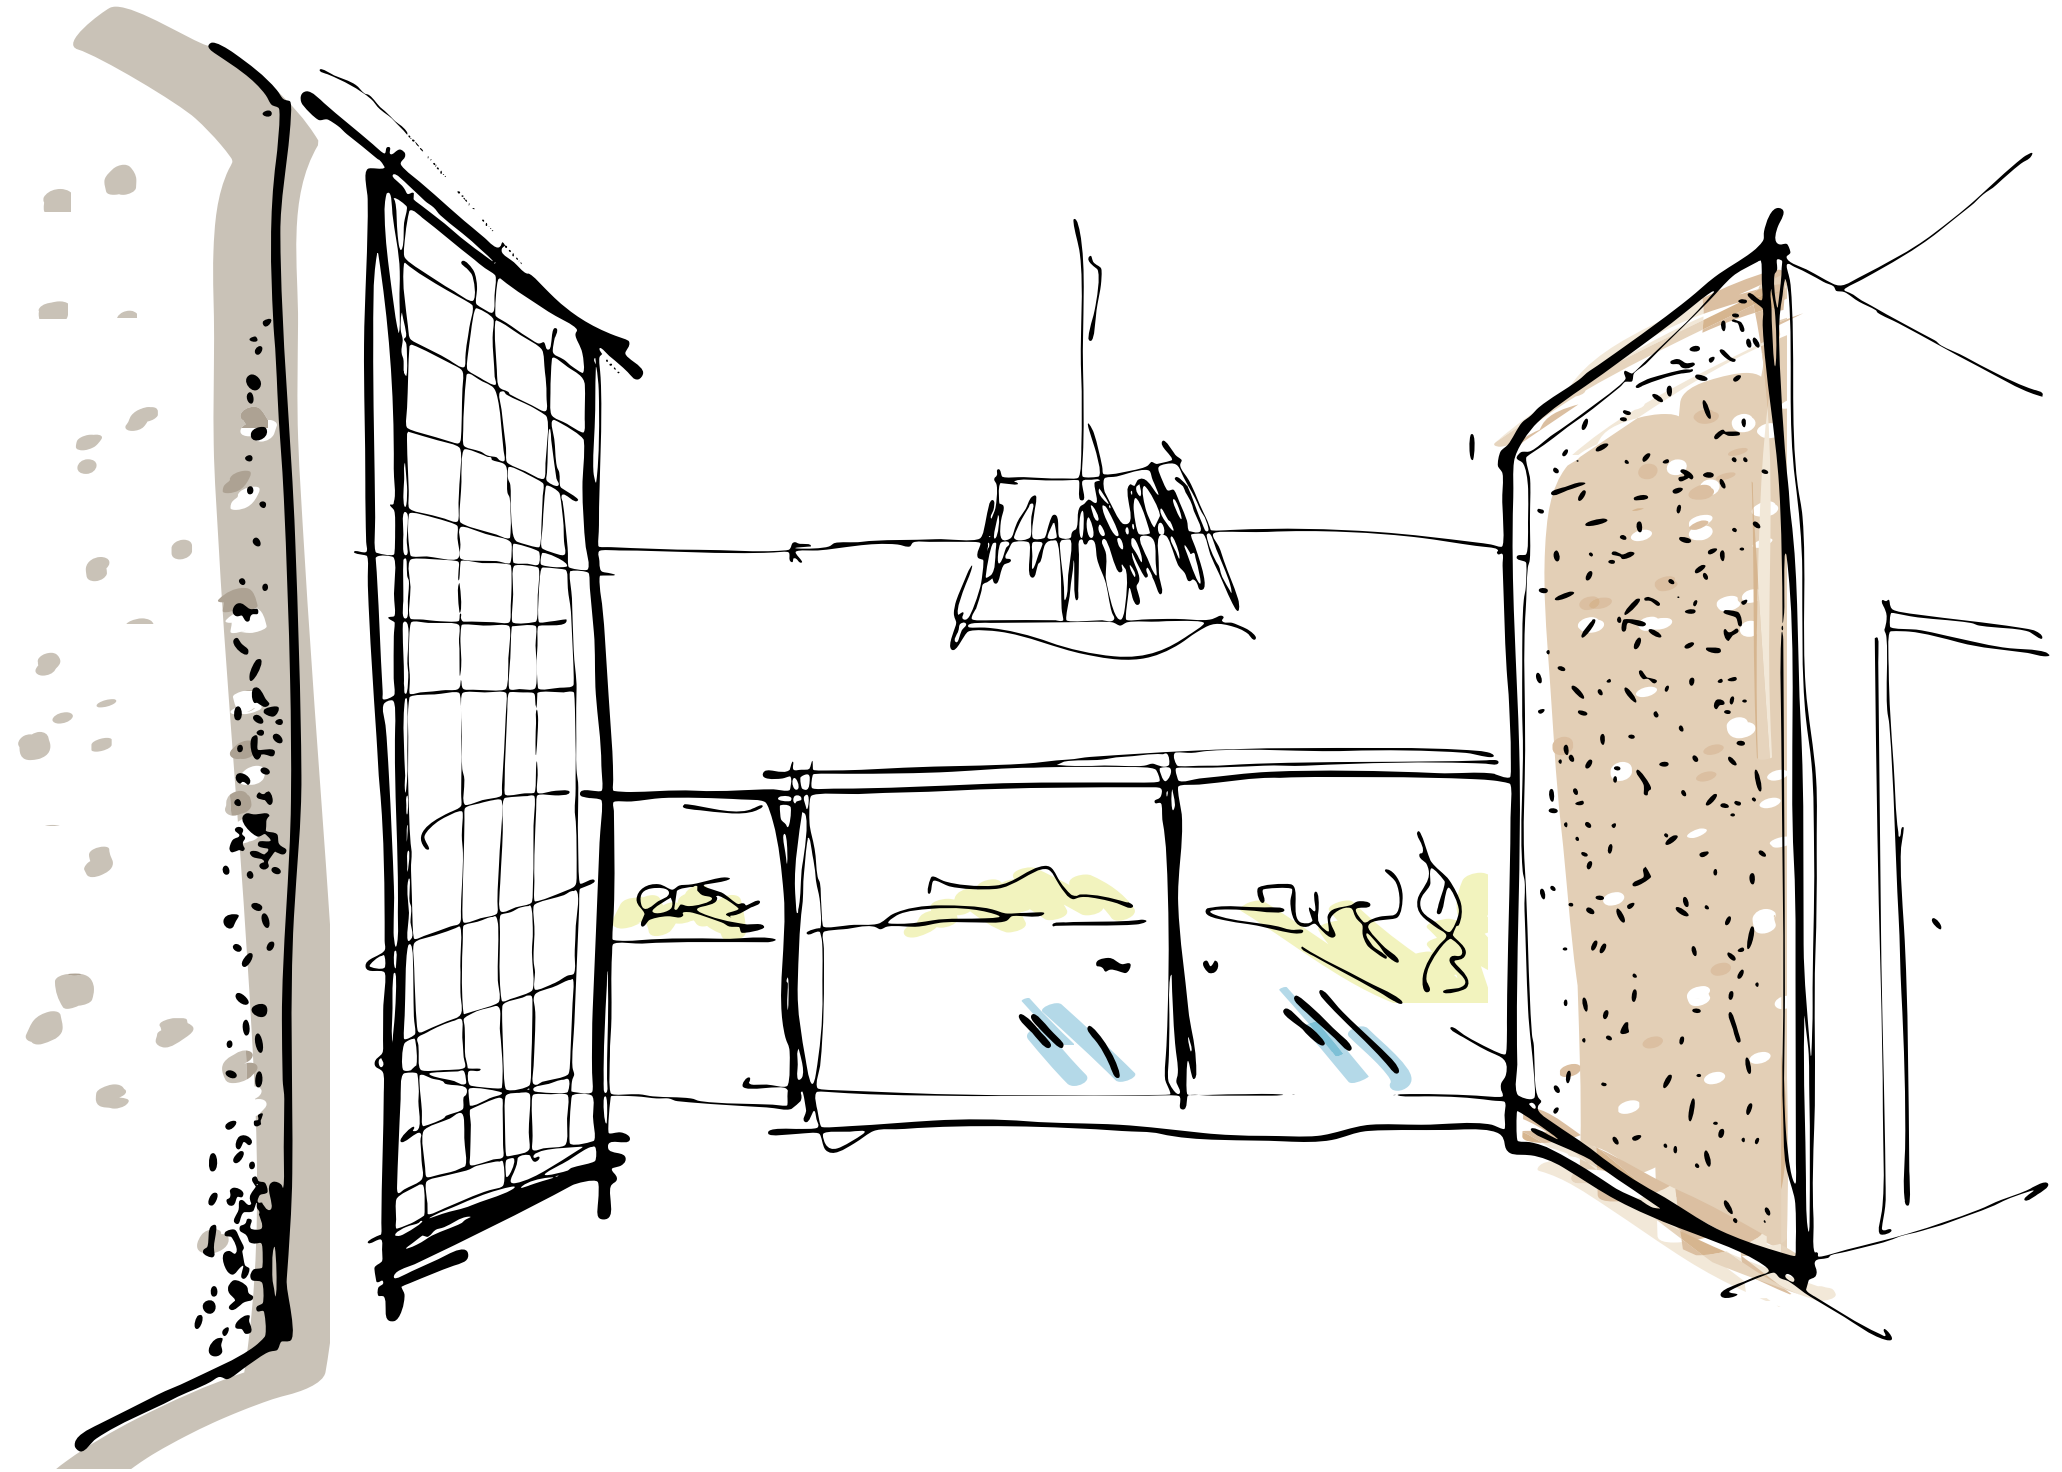

Nuestro compromiso es siempre innovar. Crear y distribuir productos y servicios adaptados a nuestro tiempo y facilitar el acceso al design de un número de personas cada vez mayor.

O ambiente em que vivemos é a essência do nosso negócio.

Somos apaixonados por design. Acreditamos que o design pode transformar ambientes e emocionar pessoas.

Nosso compromisso é inovar sempre. Criar e distribuir produtos e serviços adequados ao nosso tempo e que viabilizem o acesso ao design de um número de pessoas cada vez maior.

Fina Stone

by Rubistone

The lightest and most flexible natural stone on the market.

FINASTONE is a laminate of natural slate, 1 to 2 mm thick and coated with fiberglass and polyester, providing high strength and great dimensional stability.

The flexible stone laminates were first created in 1995 when a German slate furniture designer found that when the resins used for slate laminates were removed from a broken table, there remained a stone skin.

After many years of research and development the process has been perfected for a new complete series of natural flexible stone laminate products.

Der leichteste und flexibelste Naturstein auf dem Markt.

FINASTONE ist nur 1 bis 2 mm dick, mit Glasfaser und Polyester beschichtet mit hoher Festigkeit und ausgezeichnete Dimensionsstabilität.

Die flexiblen Stein Laminate wurden erstmals in 1995 erstellt, als ein deutscher Schiefer Möbeldesigner festgestellt hat, dass, wenn die Schiefer vom Harz von einem gebrochenen Tisch entfernt wird, ein Stein Haut bleibt.

Nach vielen Jahren der Forschung und Entwicklung der Prozess, wird sich es verbessert über eine neue komplette flexible Serie von Naturstein Laminate.

La pierre naturelle la plus souple et légère du marché.

FINASTONE est une lame d'ardoise naturelle d'entre 1 et 2 mm d'épaisseur, recouverte au dos de fibre de verre et de polyester, qui lui confèrent une forte résistance et une grande stabilité dimensionnelle.

Les lames de pierre souples ont été créées pour la première fois en 1995, lorsqu'un concepteur de meubles en ardoise allemand s'est rendu compte qu'en retirant d'une table les résines utilisées pour des lames d'ardoise, il restait une peau de pierre.

Après de nombreuses années de recherche et de développement, le processus fut perfectionné pour une nouvelle série complète de produits de lames de pierre souple et naturelle.

La piedra natural más flexible y ligera del mercado

FINASTONE es una lámina de pizarra natural de entre 1 a 2 mm de espesor, recubierta por detrás de fibra de vidrio y polyester, que le proporciona una alta resistencia y gran estabilidad dimensional.

Las láminas flexibles de piedra fueron creadas por primera vez en 1995, cuando un diseñador de muebles de pizarra alemán encontró que cuando las resinas utilizadas para lamas de pizarra fueron retiradas de una mesa rota, quedo una piel de piedra restante.

Después de muchos años de investigación y desarrollo el proceso ha sido perfeccionado para una nueva serie completa de productos de las láminas de piedra flexible y natural.

A pedra natural mais leve e flexível do mercado.

FinaStone é uma lamina de ardosa natural com 1 a 2mm de espessura e revestido com fibra de vidro e polyester, proporcionando alta resistência e grande estabilidade dimensional.

Os laminados flexíveis de pedra foram criados pela primeira vez em 1995, quando um designer de móveis em pedra alemão descobriu que quando retirava a ardosa das resinas de uma mesa danificada, ficava sempre uma película de pedra natural.

Depois de muitos anos de pesquisa e desenvolvimento do processo, tem sido aperfeiçoado para uma nova série completa de produtos naturais laminados flexíveis de pedra.
